He graduated from West Virginia Wesleyan a member of the D. K. Pearson class of 1904. Entering Baltimore Medical college in the fall of 1904, he graduated from the same in 1908 with Cum Laude and served by appointment as resident physician to Maryland General Hospital 1908-09, after which he located in Clarksburg, West Virginia, where he has carried on a very successful practice ever since.

On July 17th, 1907, he was married to Miss Anna Morrison, the accomplished daughter of Senator and Mrs. James Wesley Morrison of Braxton County, and a member also of the D. K. Pearson Class of 1904. To this union have been given three interesting children, viz. J. Frank 13, John Wesley 9, and Martha Virginia 6.

Young Men's Christian Association

In every college, the life of the student should center round Christian Experience. The purpose of the Y. M. C. A. is to help each student cultivate this Christian life thru its social and devotional activities. In this manner, leadership is developed which results in broadening Christian influence in college life as well as in the world about us.

Under the direction of our energetic president Ross Boner, the Y. M. C. A. has experienced one of the most successful years since its organizaton at Wesleyan. The devotional services, held on Thursday evenings, have been of unusual value due to the high intellectual and spiritual plan of the services.

The year of 1921-1922 was not devoid of mountain peak experiences. The association was brought in touch with post war conditions in Europe thru the interesting and instructive lectures of Drs. Richard Aspinall and S. K. Arbuthnot who were privileged to visit Europe during the summer of '21. Also the special meetings conducted by Bishop McConnell, which were of great value in upbuilding the spiritual life among the students. The visit of D. M. B. Fuller upon Feb. 9 the day of prayer for the colleges was a high inspiration to the spiritual life of the institution.

Thru the efforts of the cabinet the "Y. M. C. A. Hand Book" was made possible. It was published and made ready for distribution to the incoming Freshman class. It contained information that was valuable to the new students as well as to the upper classmen.

This year the Lecture Course was bigger and better than ever offered the college before. The course consisted of eight numbers, among them were such international attractions as John Kendricks Bangs, Dr. S. Parks Cadman, and Ida M. Tarbell. Due to the management of A. F. Shomo the financial success was marked, which makes possible the enlargement of the course next year.

The Y. W. C. A.

The Y. W. C. A. has had a very successful year under the leadership of Miss Helen Silman. The Cabinet has ably cooperated in helping to make the organization a vital force in student life.

The aim has been to strengthen the organization. The constitution has been revised and by means of a new budget system the organization has been put on a sound financial basis. Thus a wiser and more constructive policy for the conduct of the Y. W. has been developed.

We were able to send our full quota of delegates to the State Cabinet convention at Phillippi and we hope to send four representatives to the Summer Conference at Eaglesmere.

All this added to the fact that the new cabinet is capable and enthusiastic, foretells that the year 1922-23 will be a year of brilliant accomplishments in the Y. W. C. A. of West Virginia Wesleyan.

The Wesleyan Ministerial Association

The Wesleyan Ministerial Association is an organization composed of College men who are looking forward to the Christian ministry as their life work. The aim of the Association is to deepen the spiritual lives of its members and to help equip them for the calling they have chosen. The meetings of the Organization are held once each month, at which time papers are read and helpful talks are given by prominent men. The following men have addressed the Association this year, Prof. L. H. Crisman, Dr. Wallace B. Fleming, Dr. G. D. Smith, Prof. Richard Aspinal, Dr. J. B. Workman, and Dr. H. D. Clark. On the second Sunday evening of each month the services at the First Methodist Episcopal Church of Buckhannon are held under the direction of the Association and one of its members delivers the sermon. This has been one of the most successful features of the work of the Association and has had the decided approval of the people of Buckhannon.

There perhaps falls upon no other organization in Wesleyan heavier responsibilities than those which fall upon this group. The manner in which the Association is conducted reveals the fact that the members appreciate these responsibilities. They are striving to prepare themselves in such a way, as will enable them to render the greatest service to their Great Leader and to their fellow-men.

The Wesleyan Debating Club, pioneer debating club of Wesleyan, and winner of the Harding Cup, will soon complete one of the most successful years of its history. During the past year the club has risen to the highest pinnacle of debating attainment, due to the fact that the membership is a selected one, and from the best talent available. The attainments of the club have also been due to the innate desire of each member to maintain the enviable record which the club has established.

In social as well as forensic attainment the club stands in the forefront at Wesleyan, for the annual banquets are looked forward to with joyful anticipation, and remembered as landmarks in our college career. The third annual banquet, held on January the thirteenth, proved to be the outstanding social event of the college year, with the possible exception of the Junior-Senior banquet.

True to its standard of standing preeminently for all that is best for Wesleyan college, the club early in the year voted to admit members of the fair sex as active members. Almost immediately eight of the most accomplished young ladies of the college united with the club, and their presence has been an inspiration.

Owing to the loss of three of the personnel of last year's Inter-Collegiate team by graduation it was deemed best not to engage in inter-collegiate debating this year. However, inter-club debates are being planned with the Webster Debating Club, and the Wesleyan Club will be well represented in these clashes.

A number of our members will graduate in June and with them goes our sincere best wishes. We are confident that "just over the hill" success awaits them in their chosen fields of endeavor.

The marked attainment of the school year of '21-'22 record an era of progression for the Webster Debating Club. At the present date there is a membership of forty-seven. Early in the fall the young men decided that a valuable addition might be made to their already efficient and well organized body and as a result seven members of the fair sex were taken into the full and active membership.

Not only has the Webster increased in size but in quality. It stands at the highest pinnacle of forensic attainment and has publically proved this fact by a unanimous victory over Wesleyan her sister debating club, in an inter-club debate that took place in the college auditorium on the morning of Jan. 21. Thanks to the victors—A. F. Shomo and M. L. Husted who upheld such a splendid offensive.

On March ninth the Webster debating with its many guests met for a pleasant evening's entertainment at the clubs first Annual Banquet. The extreme success of the festic activity proved very promising for the future years of the club.

We wish to thank the debating seniors for their hearty participation in all the club activities. Viewing their future prospects we might say "sail on nor fear to brest the sea, Our hearts our hopes are all with thee, Our hearts, our hopes, our prayers, our tears, our faith triumphant o'er our fears, are all with thee, are all with thee."

Treasures which neither moth nor dust can corrupt, nor thieves break through and steal are what we carry away from EXCELSIOR. Those Napoleonic leaders, our officers, have dared much and accomplished more. Members of unusual programs and original productions, which could only come out of Excelsior. June Young's Jazz Orchestra has figured largely in our programme and different chorus's of girls and many other startling features.

We saved all our energies and expended them all in one lavish production in the spring of the year, "Penrod", Booth Tarkington's clever play. An unusual large cast produced this triumph and all the difficulties incident on such a large number were bravely overcome. The finished production is one that the world will not willingly let die.

Some of the fondest memories and reminiscences of college life twine about this old hall and some day it will be our proudest boast to say to our descendants "I belong to Excelsior—go thou and do likewise."

Chrestomathean Literary Society performs a needed function in college life at Wesleyan. It furnishes an outlet for many forms of talent which might otherwise find no expression except for the existence of the two literary societies. Those members who possess sparks of genius in oratory, elocution, dramatics, debating, music, leadership and various forms of humor find in "Chresto" a place where such abilities are fostered and allowed to develop.

Besides the loyal efforts of our scores of old members, this year we have had the advantage of over a hundred new members, all of them talented and willing workers. At no time during the year has "Chresto" spirit lagged. Every meeting has been well attended, in spite of other attractions which often existed on Saturday nights. This has no doubt been because Chrestomatheans are loyal to their society, and "Chresto" occupies first place with them on this night.

Another explanation of the unflagging interest is to be found in the excellent programs which have been offered each week. According to the testimony of members of long standing the programs this year have on a whole surpassed those of many years. In addition to this triumph we feel justly proud of the success scored by the group of talented members who, early in February, presented "Stop Thief"—a most brilliant performance in every respect.

"Chresto's" plans for the future are to hold what we have gained in our literary realm, and to climb still higher, ever holding aloft the ideals of Chrestomatheanism as an incentive to literary achievement in Wesleyan.

P. ΦΣΚ.

P. K. C.

They say that "misery loves company" and that "birds of a feather flock together" acting on these principles, we the preachers kids of Wesleyan, drawn together by the ties of sympathy and the bonds of suffering, conceived the idea of forming an organization for the purpose of candolence and reflection on our bitter lot.

So we assembled ourselves together in solemn conclave and formed the illustrious society which we have designed to call the "Preachers Kid Club". The officers elected at our first meeting were—Orin D. Curtis, President—Gladys Dawson, Vice President—Gladys Beddow, Sec. and Treas. and Ruth Kemble, Historian.

Since we have so much in common we have a very congenial group. The organization is for social purposes. We hope that the P. K. C. will continue from year to year.

Wesleyan may well be proud of such an organization. To the dignity, grace, and the goodness that every one expects from the sons and daughters of the marse, we have added our own brilliant achievements. We number among our group the most brilliant and profound intellectuals, glittering stars of the social world, musicians whose fame will eclipse that of Paderewski and the writers who will startle the world with literature. But modesty bids me say no more. Our careers speak for themselves. Surely we will reflect glory on old Wesleyan and the parsonage from which we came.

"Wesleyan's most notable achievement."

"The Pharos," published bi-weekly during the college year by the students, is one of the most valuable contributions to the student life of Wesleyan. All of the college news that is fit to print is found between its sheets, and original contributions from the leading literary students of the college are published in every issue. Through its columns the alumni are adequately enabled to keep in touch with the many activities of their Alma Mater.

New features have been added this year, such as the "Jesters' Colyum" and the "Ramblings". The contributions of the athletic editor this year have been largely responsible for the exceeding popularity of the paper among the students; the athletic news being of an unusually high character. In general "The Pharos" of '22 has been of a higher calibre than ever before, due to the excellent cooperation of the staff.

"Wesleyan's most notable achievement," is the verdict of a leading alumnus of Wesleyan. Those who have enjoyed reading its columns will agree that it has merited this commendation.

Editorial

Dear Readers:—

This may not be the best annual that will ever be published at Wesleyan, but it is the result of hard honest labor, and we trust that in perusing these pages you will remember that it is easier to be critical than correct. "To err is human, to forgive divine," so forgive all our colossal errors.

We trust you will find in this book, much of interest and entertainment, and it will always be a store of memories of your Wesleyan days.

We wish to extend thanks to all who have assisted in the compiling of this book: to all the members of the Staff: to all who have assisted us with their advertisements: and especially to Miss Jo MacAvoy for her untiring efforts, and the use of her Studio and work rooms where the engraving copy was prepared, and the book Edited.

The Editor.

BENSINE RING

BENZINE
RING

Benzene Ring

The Benzene Ring was not the result of spontaneous combustion, but was the outcome of much thought and planning on the part of Prof. Hyma and his class in quantitative analysis. The idea was weighed out carefully, on the analytical balance and compounded to an exact formula Viz:—

Work + Loyalty = Good Society + Success

The experiment was then carefully heeded. Vigorous action began at once. As reactions depend largely on the catalytic agents used, the now bubbling Society elected Floyd Bonar as President, Torlock Rasmussen Vice President, and Nelle McLaughlin as Secretary and Treasurer.

These catalytic agents reacted so rapidly and effectively, that by the second semester a Chemistry Library was on the way to formation, with by products of interest, pep and fun. At the beginning of the second Semester, due only to custom, new catalytic agents were used, namely Nelle McLaughlin, President, Ruhl Custer, Vice President, Willa Latham, Secretary, Katherine Hart, Treasurer. The entrance requirements are merely that those desiring admittance, are willing to work for the Society and that they be in the second year of Chemistry.

New elements are introduced in the Chemistry Society with much pomp and ceremony, and many harrowing experiences behind closed doors.

Bi-Monthly Meetings are held at which interesting Lectures by men prominent in the Scientific World are given to the public.

Oh, we are an active effervescing bunch.

New Alumni Athletic Board

At the mid-year meeting of the Board of Trustees of West Virginia Wesleyan College, held on January 18th, authorization was given for the creating of an Athletic Board of the Alumni of the Institution. On this Board the Trustees will be represented by having one of their number who is a graduate of the school. In the same way the Faculty will be represented. Then the students will have two representatives, as perspective Alumni.

In accordance with this plan, Rev. Roy McCuskey, the President of the Alumni Association, appointed the following members of the Board. Mr. Clyde O. Law, of the Class of 1909, Wheeling, W. Va.; Dr. Jesse F. Williams, of the Class of 1904, Clarksburg, W. Va.; Prof. O. E. Karickhoff, of the Class of 1905, Buckhannon, W. Va.; Hal F. Morris of the Class of 1906, of Charleston, W. Va.

It is altogether probable that the other chief centers and population in this state will be represented on this Alumni Board. But it was thought that the present membership would be sufficient for the planning of the work of next year, and that the full number desired could be elected at the Annual Meeting, of the Alumni Association held at Commencement time.

The students were authorized to nominate their own representatives on this Board and they chose Mr. Paul Forman, of the class of 1922, and Mr. Cecil B. Ross of the Class of 1923.

The members of the new Board met promptly and elected their own officers, Clyde O. Law being elected President, and Dr. Jesse F. Williams, Secretary-Treasurer.

Local Chapters of the Wesleyan Alumni have been organized in a number of the sections of the State, and these have pledged hearty support of the plan.

With R. W. Shumaker of the Class of 1917, as permanent Alumni Secretary, and Graduate Manager in Athletics, and with such an Alumni Athletic Board organized, and with Kelcel Ross of the Class of 1920 as Professor of Physical Education for men, and with Bob Higgins as Foot Ball Coach, the Athletic outlook at Wesleyan was never brighter.

Varsity Club

Wesleyan Varsity Club

The membership of the club has increased from ten to a membership of fifty-five. During the year of the 1922 Tournament they held a banquet on the second night of the Tournament, inviting all the coaches of the teams, this date will be held in the years to come for an annual banquet.

In view of the fact that Wesleyan is rapidly growing it is of the utmost importance that we should have cooperation of all wearers of the "W" to make this organization a success.

Football 1921

The Wesleyan Football team played one of the hardest schedules that faced any college team in the country this past season. The fact that the scores are marked up on the wrong side of the slate is no fault of the players or of the coaches who directed the team.

Due to the heavy schedule several valuable men were severely injured and were unable to play in later games, this weakened the team to a great extent.

While the season does not seem to be a success in reality it was. We are now on a sound basis financially and the material we had this year has been developed to a great extent, and will be able to start right in under the tutoring of BOB HIGGINS next year. A successful season is assured.

Basketball 1922

Wesleyan rightly boasts of the best team in the state during the season of 1922, and we think as good as any team in the Tri-State District. Composed of veterans of last years CHAMPIONS they were developed to the highest pitch as basketball players.

The disasterous invasion of Pennsylvania where we lost games to Wand J. Pitt, Carnegie Tech. all by a small score. In all these games Wesleyan superiority was shown in the fact that they led in the scoring until the second half, when the wear of the trip and games began to show on them.

In a game played on the eve of the ninth annual High School Tournament WESLEYAN won the undisputed CHAMPIONSHIP of WEST VIRGINIA by defeating the strong West Virginia State Quintet by the score of 30 to 27 in one of the most thrilling games ever staged in the large Wesleyan Gym.

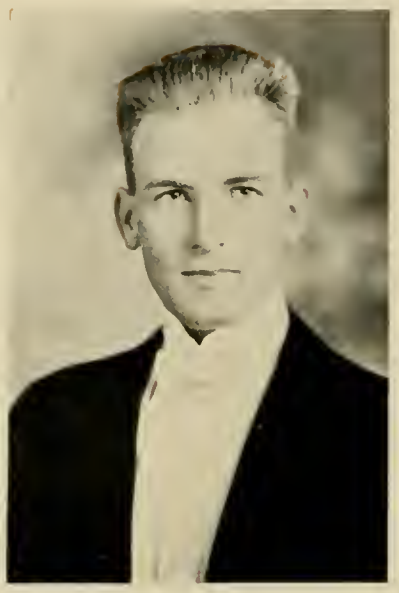
BASE BALL '21

Baseball 1921

The Wesleyan Baseball team under the able coaching of "Biggy Reeder" and the leadership of Mahre Stark was very successful. While not annexing the State Championship which Wesleyan had held ever since 1916—the season was one which the school could be justly proud. Wesleyan played a series of games with Bethany—Moundsville Collegians—Fairmont Normal—Morris Harvey—Salem College—West Union Independents—Wanesburg College—Glenville Normal. Out of sixteen games played of this number only four were lost, a very creditable record for any school.

The personnel of the team was: Infield—Beech Dunn, Jimmie Johnson, John Knight, Cebe Ross, Mahre Stark (Capt.). Outfield: Bill Dunn, Lorentz and Young. Wesleyan was exceedingly thankful in having Ken Ash, Lefty Lewes and Curtis as the pitching staff.

STATE CHAMPIONS 1922.



The 1922 Tournament

The 1922 tournament, known as the Ninth Annual High School Basket Ball Tournament of West Virginia, was heralded weeks before it happened as the best tournament in the history of state high school basket ball, and at its close was proclaimed unanimously the best floor entertainment yet held with state high school fives competing for championship honors.

The 1922 Tournament was a new departure from the past annual tourneys in that the endurance trials in the elimination games were reduced to a sensible minimum. Thirty-two teams, held by twenty-five leading state athletic authorities to be the representative championship contenders in the state, met and played in a division classified for convenience as Division A. Thirty-two other teams with well matched records were selected and played in a division classified as Division B. While the winners of the Division A tournament became state champions and were awarded state championship trophies, the winners in Division B were accorded similar honors and won several beautiful cups.

Playing in a field filled with some of the snappiest organizations in the state, Buckhannon High School by defeating Parkersburg High School, Fairview High and Clendennin High, took the state title for the second consecutive time and became owners of the Silver Basket Ball, offered by The Reitz Jewelry Co., of Buckhannon as the state trophy.

Through the hearty cooperation of the basket ball coaches of the state, the people of Buckhannon, and the untiring efforts of Director Abe Upton, his assistants Harold Cutright and William Ward, the Basket Ball Tournament, by far the biggest athletic event of its kind held in West Virginia, was this year crowned with success.

SONNET

I thought to breathe for thee a song of praise
To pour my song even as Melten gold
Upon the altar of your feet unfold
Foe thee my heart, by some glad chance
But e'er I could my tangled thoughts regain
Could fit them in soft music Ebb and flow
I chanced on a book that all do know
Yet which sings e'er for me a sweet refrain

Came soft oblivion with the opening line
"I thought once how Theocritus had sung
I gloried dreaming that once I was young
That here my love was mingled with thine
The dream now passed, my heart holds all
Living throbbing, waiting for your call.

—*Marjory Young* '22.

JAPAN

The land of flowers and happy nation
In the far east of Nippon, Rising generation
So call the nation after its thought
All they praise the glory of its sight.

Full of cherry bloom is the land
Shining its color in the morning sun.
Showing her beauty to them all;
Speaking her message to them all.

Nature speaks the nation after its thought;
Nourishing the people in her bosom.
Then shall not fail from her toil
The building of a nation and her people

God speaks in the flower.
The beautiful character and manliness
So the nation characterizes with it
Let the nation grow as the master has taught.

THE LAMPS OF HEAVEN

The great sun fades, so to the earth
The moon sends down her light
As the world is crowned in darkness
Set with jewelled stars so bright.

The moon keeps watch 'er all the stars
With love and labor free,
And the calm night is soon over
And her light fades o'er moor and lea.

Sweet dreams bids to all the stars
Then gently tucks them in their beds
Made of circul clouds so fleecy and white
With the pillowy cumulus under their heads.

At length the spherule kindles red
With the light to brighten the dull earth
So in giving he may receive
From each sore tired heart, its
light and mirth.

SCHEMING

Scheming in the hallway
Scheming on the stair
Scheming in the chapel
Scheming everywhere.

Berenice and Luke Rogers
Twosing on the stairs
Saum and petite Marjory
Taken unawares.

Hendrickson and Le Roy
Esther-Swede or Greene?
Farther on we find these
Marguerite Smith and seventeen.

John and Mildred, surely
Helen and John Knight
Craig and Stratton, always
What a pleasing sight.

Welch and Wetmore, rivals
For fair Edith J——
Gayle and Cutty, carefree
Chasing lines away.

Tenney, whom the women
Ceaslessly pursue
So many fighting for his hand
There's nothing one can do.

Bable and Bland Casto
Abe and Isabella
Mary Powers and Percy Ross
Jimmy and Lou Wella.

For every one's a schemer
Any time or place.

Let professors rave and
Malediction bring
Schemers will be schemers
Spite of everything.

And that's not quite all.

SMALL BROTHER

Small brother you leave so many tracks
Through hallways, up and down the stairs
You know not the uses of wardrobes or racks
So busy are you with your boy affairs.

Small brother your suit was so neatly pressed
And now it bags with strange boy things
Candy stuck to rubber bands
Mixed so and pressed
With nails, shells, gum and odd bits of strings

Small brother won't your face stay clean at all
Were your ears made with curlicues just for the dust
Are all of the springs and the wheels you love
Made of engine grease, mud and iron rust?

Small brother—But hush: For his clear eyes say
To those that would blame and pick and deride:
"Gee folks—I'm havin' a dandy time
And my dust washes off—'cause it's all outside."

—Jean Latham.

THE RAIN

The rain and I
are friends for ay,
He dimples from each wayside pool
And beckons me with fingers cool
And when I join him, up he slips
And kisses me with fresh young lips
I journey with him, mortal-mute
The while he plays his silver flute
And when too crowded grows the way
Round us he flings a curtain grey
Earths companions I disdain
Hand in hand I race with rain
Lightning flashes—thunder voice—
Men fear, but rain and I rejoice
And to the gods I make this prayer
May I ne'er be too old to share
These joys: may we until I die
Be friends for always—Rain and I.

Seven P. M.

By Bugs Teets.

There are twenty-four hours in every day. Somebody either invented or discovered this fact even before Noah's Ark landed on Ararat. Perhaps, at first glance the fact within itself is of insignificance, except for the mere assertion. To Tommy Doyle, a College man of Wythmore College, rated as a Sophomore, but in truth a four hour Freshman this fact meant much. Twenty-four hours, each one composed of but sixty fleeting minutes was too short a period for Tommy to crown the events of existence into. Tommy was the sort of chap whom companions call a good fellow, but whom more experienced men mark as a listless ne'er-do-well.

At Wythmore Doyle was a popular grid-iron artist. He had the uncanny ability to add five yards just when those five yards were needed most. His lucky toe often was successful in sending over the bar a drop kick for three points when scores were tied and the game nearly done. He had the unfortunate knack also of being able to flunk at examination time just when his Professors most wanted to see him make a passing grade. When dinner parties, week end camping trips, nocturnal prowls or club dances interfered with Tommy Doyle's routine school work, Tommy promptly cancelled that source of worry least necessary to his existence. It so happened that usually the school work was least necessary, in Tommy's idea of his earthly welfare.

The turning point in Tommy Doyle's career came in the form of a tragedy. Tommy had just started the regular evening jaunt down street with three companions on the habitual Coca Cola tour, which always ended up with a pie and ham sandwich fete near midnight. A messenger boy found him and delivered a telegram. When the youth with a thousand wonderful flowry-beds-of-ease theories of life opened and read the small yellow sheet, his face grew pale. A companion caught the telegram as it fell from quavering hands, and sensed a catastrophe. Each, boylike, offered sympathy as best they knew how, after each in turn read the telegram. Tommy's father had been killed in an automobile accident, and his mother had wired her son to come home at once.

Two years later Tommy Doyle was trying hard to make a success at selling life insurance. It was a last despairing effort at making good, after having tried to do everything from being a machinist helper to being private secretary to a Theater Manager. The last position Tommy managed miraculously to hold for four days. He had learned the insurance business in one afternoon and evening from an old experienced field agent representing an old and well established firm. The education he received in this short time consisted of learning to interpret rate tables, how to fill in blank applications, how to approach prospects and how to forward the volume of business which would crown his efforts and swell his bank account by many thousands of dollars annually. After three months of brilliantly prophesied, but dismally resulting success, Tommy began to look for something else to do.

Daily he sat in his rent ridden office, now a rendezvous for creditors, patiently scanning help want advertisements in daily papers. Well meaning friends sadly shook their heads, and marked Tommy Doyle as a young man who would not "stick". Only two people in the world believed in Tommy. One of these was his mother, and the other was a fair creation of humanity, whom Tommy always sent post cards to when away from home over the week end, or out of town for an evening.

Doyle was forced to action at last when the little home he and his mother were trying to hold became endangered. A new man had grown up in the place of the care free Tommy Doyle who idly had thrown away two years of college life at Wythmore. Necessity demanded action, but Tommy seemed powerless. At last he saw in a want advertisement an opportunity. A well established firm wanted a young man, energetic and resourceful to manage one of its branch offices. Tommy applied for the position, received the appointment, but after three months was forced to give it up, with another stigma attached to his career. He was honest, tried hard, was popular, but could not deliver the goods demanded by his employers.

Often a letter from an old friend brings a ray of sunshine into the darkest and bleakest day, warming up and giving life to dormant ambitions and transposing dispair into hope. Tommy received a letter of this sort from an old team mate, formerly a tackle on the Wythmore eleven. Leonard Bailes had often tore great gaps in opposing lines, and had paved the way for Tommy Doyle to dash through with the ball for many spectacular gains. Doggedly fighting up on the line, few noticed Bailes, and unthinking Tommy failed often to recognize the work of Bailes as the foundation for his success as a foot ball player. Bailes was now coaching in a small college in the west, and making good.

Bitterly Tommy Doyle measured himself with Bailes. Unconsciously he was jealous, and cursing the mythical Lady Luck, placed all blame at her feet. Eventually Doyle found the cause for his failures, and for Bailes' success. He was as good a man as Bailes, but did not have the equipment to work with as did his college day companion.

Acquaintances of Doyle's first missed him at the club where he was wont to spend evenings. Next a city bowling club missed, and finally began to get along without Doyle's services. Some advanced the theory that Tommy was stricken with a love affair, while others simply explained that the boy was not to be depended upon in anything. Tommy was rapidly losing the respect of his well meaning home town friends.

Today, in a large city in New Mexico one may find Tommy Doyle very busy sitting at a desk in the main office of a conveniently appointed suite in a large office building. On the outer door in plain black lettering one may read, "Bailes & Doyle, Mining Engineers." Behind a door marked, "General Manager, Private," sits Tommy Doyle. In his eyes sparkles the fire of battle, and his conversation over the telephone indicates that some important business enterprise is under way.

For several months Bailes & Doyle had been completing the opening of a cinebar mine, a lode of which had been discovered by mere accident. By Doyle's quick work and far sightedness, an option had been secured which would control the output of the mine. A competing firm however was in the field, and were standing ready, backed by the gold of a New York syndicate to purchase these rights, the minute Doyle's option expired. With the mine opened, Bailes & Doyle could procure loans enough to close their deal. It was a race upon which Tommy Doyle's future hung. Unless Bailes received certain parts of machinery and equipment on time, there was danger of the enterprise failing.

Business men in the New Mexico city marvelled at Tommy Doyle's rapid rise. Speaking before the board of Directors of the bank of which Tommy had just been elected President, Tommy Doyle told a quaint story. His first sentence shocked his hearers to attention with its simplicity. "There are twenty four hours in every day," said Doyle. "One of these is the keystone to all the rest. What a man does at this

hour marks the success or the failures bound up in the other twenty three. When the day's activities are over, one seeks leisure and recreation. Some choose recreation that makes for aid in the affairs of tomorrow while others choose that form which holds them within the limits of yesterday. I have found this hour to be seven p. m."

As the Directors listened Tommy told the story of his frivolous college days, his tragic failures in the school of experience and his eventual awakening. Unable to again enter college, he took the next remaining step and obtained a correspondence course in mining. He worked in a steam laundry from seven until six. At seven he regularly commenced his study, and thus got his first grip on Tommy Doyle. After a few months of this old Coach found him, and Tommy was given another chance in the University where the old Wythmore Gridiron coach was now located. Tommy made good, for he had learned the secret of Seven P. M. and after graduating, went into business with his old team mate, Leonard Bailes in New Mexico.

Doyle was dictating when a message was brought to his office. The rhythm and music of the typewriters in the various rooms seemed to cease for the moment as Doyle opened the telegram. All sensed that on the little yellow sheet of paper was the answer to the months of struggle, which Tommy and Bailes had been making against the gold of a larger firm; success or failure, depended upon the contents of the telegram. The telegram was worded; "Equipment O. K. First ore up today according to plan. Owners want cash. McCreary's men are here. Am holding them one more day. Bailes."

While Tommy's old friends in his old home town gathered at their club and while the Bowling team warmed up for the last game of a thrilling series, the following message was being enthusiastically read by Leonard Bailes: "Fine work old man. Give them cash, sight draft on company O. K. here."

Perhaps it was just an afterthought, perhaps it was premeditated, perhaps it was just one of the strange idiosyncrasies of man, but Tommy Doyle with an air of satisfaction and confidence called up a familiar number over the long distance telephone. Tommy talked for some time, to the fair creation in his old home town; to the younger of the pair that had always believed he could and would make good. A few days later he was visiting his mother, and when she happily asked the time and date, Tommy's peculiar answer brought a smile to the aged face. "Tonight, Mother, at seven p. m." was his reply. "Strange hour for a wedding, son!" was the only comment his mother made.

The Northwestern Mutual Life Insurance Company

Have you thought about Life Insurance as a life profession? There is no established business or profession where so little cash capital is required, and where HARD WORK represents such a large proportion of the requirements for success.

The Northwestern Agency in West Virginia is a young man's organization. It has an unusually large proportion of college-trained men in its ranks.

This Agency is known throughout the United States for the number of young men having special scholastic training for Life Insurance work which it has—and for the rapid advancement which they are making.

Are you interested in getting into a profession which offers opportunity limited only by your energy and ability, and connecting yourself with a progressive, aggressive organization?
